

Are You Losing Control? Surprise...Surprise!

FAASTeam Rep. Kenneth MacDonald and FAASTeam Program Manager Jim Adams will present this eye opening safety seminar on preventing loss of aircraft control. We will review and discuss loss of control accidents and see how they could have been prevented. Every year countless aircraft depart from controlled flight, unfortunately many pilots do not regain control prior to impacting the ground, resulting in serious injuries or death. This is an interactive seminar, so bring your questions. This seminar hosted by Worcester Area Pilots Association and Juniper Hill Golf Course. The Juniper Grill will be open at 6:00 PM for food and drinks prior to the start of the seminar. Click the link below and register TODAY.

Directions: Follow MA RT-20 to Brigham St. Follow the maplink or visit <http://www.juniperhillgc.com/directions/>.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
